

Work with the best team at creating thermal and acoustic insulation

Based in Co Meath, MacCann & Byrne are importers, manufacturers and distributors of quality timber and building products to the Irish construction industry since 1906. Specialising in sustainable building systems in recent years through its subsidiary, Ecological Building Systems, the group has enjoyed spectacular growth and was winner of the Grand Designs "Best Eco Product 2006 Award" on Channel 4. With a mission 'to lead and help develop welcome changes within Irish building practice', we now require the following key personnel.

Building Services Engineer

You should have a technical background, strong sales skills, a post-graduate qualification plus 2 year's on-site experience. You will also have the ability to read drawings, prepare materials schedules and have a good working knowledge of building regulations and site practices.

Purchasing Manager

You will be responsible for the control of total group purchases of €15 million p.a. Ideally, you will have 2/3 year's experience in a purchasing department with skills in contract negotiation, stock level maintenance, invoice approval, price book and margin maintenance.

Both these positions offer the successful candidate a very attractive remuneration package in keeping with a progressive company.

*Please apply in strict confidence, to: Ashling McKenzie,
Berkley Recruitment Group, 509 The Capel Building, Mary's Abbey, Dublin 7.*
